Dear Parent Community,

Thank you to all of the people who welcomed me back to school after my long service leave.

I would like to thank Mrs Kirby and Mrs Luff who did excellent jobs as Principal and Deputy in my absence.

Yesterday’s ‘Create Your Own Lunch Day’ which was held as part of our Health Education Plan was a huge success. The children made their lunch rolls using a range of healthy ingredient options. I would like to thank the local butcher who kindly gave us the ham at a very generous price, and Savanna and Trinity’s Poppy who donated the rolls. Your support for our school is appreciated. I would like to give a big thankyou to Mrs Miller and Miss Snare for organising the day., and a huge thank you to Debbie Overmars, Kerry Sherratt and Kelsay Sherratt for their tremendous help.

School photos are being taken next week. I always encourage parents to get children to school on time, but it is additionally important on this day. Please ensure that the students arrive at school on time and if possible dressed in school uniform.

Last Friday’s assembly was presented by the Music students. Something that really impressed me about the school when I first arrived was the depth of interest and talent in music of our children. This was also the case Friday as we saw ukuleles, clarinets, guitars, and drums being played by the children. I commend the work of Mrs Aim and Ms Walsh in helping the children to achieve in this area.

I unfortunately was not here to see it, but the feedback about the Sculptures on the Green was very positive. The high quality of children’s work in art and their enthusiasm for participating in art is another area of the school that deserves mention.

Last year I attended the commissioning of Food Service Trolleys at the new Fiona Stanley Hospital which carry the art work of some of our current and former students. The quality of the work is indicative of the general standard that Mrs Palmiero gets from the children. I commend her for this work.

The scooter rack that was installed a few weeks ago is in operation. This replaces the “Scooter Cage” arrangement that was in place previously. We had a spate of scooter thefts at the end of last term from the cage which was largely insecure. The new rack allows the scooters to be secured using a padlock the children bring from home.

Regards
Ray Knight
Principal
